About Project

DocMaster is a comprehensive and versatile document management solution that consolidates seamless viewing, editing, scanning, and signing capabilities for Word, Excel, PowerPoint, and PDF files into a single, user-friendly platform. Freeing you from the inconvenience of juggling multiple applications.

Why to Design?

- Eliminates app switching for document management
- Centralizes handling of all document formats
- Enables seamless viewing, editing, scanning, signing
- Streamlines workflow for document-related tasks
- Enhances user experience with integrated capabilities
- Facilitates collaboration and sharing across file types
- Increases convenience and productivity

Benefits

Seamlessness | Multifunctionality | Productivity | Efficiency | User-friendliness | Time-saving | Convenience | Versatility

Problems for Users

- Managing multiple document formats across different apps
- App switching disrupts workflow and productivity
- Lack of unified platform for document-related tasks
- Fragmented experience handling various file types

Doc Editing

Doc Scanning

Doc Viewing

PDF signing

hassle-free experience

Solution

Doc Master is a unified platform that consolidates document viewing, editing, scanning, and PDF signing capabilities across Word, Excel, PowerPoint, and PDF files. By eliminating the need to switch between multiple apps, it streamlines workflows and enhances productivity, providing a seamless and hassle-free experience for managing diverse document types.

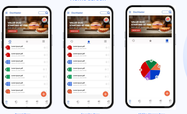
Final User Interface

Splash screen

Home screen

Home screen



Consistency:

The app maintains a consistent layout, typography, icons, and color scheme across different screens, ensuring a cohesive user experience.

Hierarchy:

The information is organized in a clear hierarchy, with the most important area being the primary focus and recognizable elements placed at the bottom.

Familiarity:

The app uses familiar icons and layouts from popular apps like Word, Excel, etc.) that are easily recognizable to users.

Simplicity:

The interface is clean and uncluttered, with a minimalistic design that avoids unnecessary elements that complexity.

Accessibility:

The use of clear typography and contrasting colors can potentially improve accessibility for users with visual impairments.

Responsive Design:

The app appears to be designed with responsiveness in mind, ensuring that adapts to the smaller screen size.

Editing file screens

Features:

- *Ability to edit, insert, format, and manipulate data in Excel spreadsheets*
- *Basic formatting options like text, colors, and background*
- *Advanced formula categories like Financial, Date/Time, Financial, and Information*
- *Options to merge cells, adjust cell width/height*
- *Copy, paste, and undo/redo actions*
